

## Sun

*by Charlie*

**The** way how we see things in life  
No matter how time passes by  
Determine our material style and essence.

**Thinking** about the sun is not more than a word  
While having the sun in your heart  
Is not just a metaphor.

**I** feel that the world is a combination of signs  
That we are going through in our lives  
No matter how one feels the difference.

**We** are the world  
And let's remind ourselves  
No matter what future brings  
We will always keep love in our heads.
